# Meter Tube Cleaning

## OUR SERVICE

10X Measurement & Controls Inc. fills the need for a specialized, reliable, efficient and safe on-site meter tube cleaning service with over 8 years of dedicated measurement experience. Our industry leading equipment allows for high-pressure hot water and degreaser flushing with full fluid containment via vacuum system, as well as ball honing—depending on the type and severity of buildup and customer preference. We understand the importance of precision and integrity in pipeline operations, and we are committed to helping our clients maintain peak performance. Each service includes a comprehensive cleaning report, with both as-found and as-left diagnostic data.

## WHY CLEAN YOUR METER TUBES?

- Maintain accuracy over the life of your meter
- Reduce risk of costly measurement discrepancies
- Reduce LAUFG
- Reduce Methane Emissions
- Improve system reliability

## WHEN TO CLEAN YOUR METER TUBES?

- Flow profile shifts
- Diagnostic Alarms
- Pipe wall build up identified
- Rust/Corrosion identified
